

***Formula270*RLK.**

- ***Weight Classes***

Every driver will be required to confirm their weight category by weighing-in wearing their full race kit. Seat inserts are provided at the weigh-in (weighing approximately 2kgs). If a driver weighs in with a seat insert, they must use one in qualifying and the races. Also, they will be given a coloured wrist band to allow the Race Marshals to recognise this & enforce if necessary.

The weight classes are as follows:

50kg: (Super Lightweight - Drivers 50.0—59.8kg)

60kg: (Lightweight - Drivers 60.0—69.8kg)

70kg: (Middleweight - Drivers 70.0—79.8kg)

80kg: (Heavyweight - Drivers 80—89.8kg)

90kg: (Super Heavyweight: Drivers 90kg+)

If the number of entries fall below 10 drivers then classes may be racing together (max total 18 drivers per race). Lighter classes will always start at the front of the grid.

- ***Different weights on different dates***

Due to popular demand, for the rest of 2022, we will be splitting the racing over two nights. Tuesday evenings are for 80s & 90s and Wednesday evenings are for 50s, 60s & 70s. Before booking, make sure you are booking into the correct weight category.
